STRAIGHT AND ZIGZAG STITCH

Straight stitching can be performed with the zigzag inside and outside presser feet that come on the machine. Cording, zippers, and other types of sewing can be done on the PWZ-500 zigzag machine by using straight stitch type presser feet made for the PW-500 straight stitch machine. The straight stitch inside presser foot is required with any of the straight stitch outside presser feet. All of the straight stitch presser feet are sold separately.

THOMPSON MINI WALKING FOOT ... The portable walking foot machine for hobby, do-it-yourself, home, and small shop operators.
